

# Newsday Data Inventory

**Tasks:** Conduct a comprehensive audit of all existing databases and data projects in Newsday's systems (*Inventory: Existing tab*) and compile a running list of new data sets to potentially add to the inventory. (*Inventory: New tab*) to add to Datasette.

**Project Duration:** 2 months

**Inventory Column Definitions:**

Data Category - Umbrella category of data (example: Education)

Source - Origin of the data (example: Census, BLS, proprietary data from company etc)

Topic - Specific area data covers (example: Graduation Rate)

Table - Name of table data lives if applicable (tablename in phpmyadmin)

CMS - Where the project exists (Wordpress, Polopoly, Panda, Unpublished)

Last Updated - Date data was last pulled

What's Missing - Data missing after last update or holes in existing data

URL - Site URL where project is published

Notes - Anything noteworthy to add

**Completed Inventory Summary:**

844 data projects, everything from big SQL tables to data that's just contained in visualizations, going back 11 years.

90 Panda projects that involve Long Island and that don't duplicate something in the 844 in the main tab.

34 categories of schools data that can be gotten directly from NYSED instead of our archives.

37 SQL tables for multi-table projects like Hospital Comparison or Supermarket Inspections.

37 suggested sources of new databases available in [data.ny.gov](https://data.ny.gov)
